Maybank's strong transaction banking performance saw its revenue grow 19% and profit by 17%. Its regional cash management platform stretches across 10 ASEAN countries and Greater China.

Maybank is the first Malaysian bank to launch a truly regional cash management platform across the region, to ensure that it is well prepared to meet the increasingly regional transactional needs of its corporate customers.

It is also the first bank to launch Shariah-Compliant transaction banking solutions. With its extensive real-time capabilities, it is the undisputed transaction banking leader in the country.

Maybank has also become BPO ready and gives customers an alternative and secured means of settlement in international trade. It provides the benefits of a letter of credit (LC) in an automated environment and enables them to offer flexible risk mitigation and financing services across the supply chain of their customers.

About 1,000 delegates attended the event, consisting of industry specialists, senior bankers, regulators, service providers and decision makers from leading institutions in Asia, the US, Europe and Latin America, where opinions and responses of practitioners from across the region to global issues are shaped.

The Transaction Banking Awards under the Asian Banker Business Achievement Awards are widely acknowledged by the financial services industry as the highest possible accolade available to professionals and banks in the industry as recognised in the Asia Pacific region.

The Transaction Banking Awards evaluate banks' achievements in cash management, payments, and trade finance. The winners for these awards are determined through a combination of surveys, interviews and field research by The Asian Banker's research staff. A stringent three-month evaluation process based on a balanced and transparent scorecard had been used to determine the winners.
