Singapore June 9th 2017- China Merchants Bank (CMB) received the award for **Best (Joint Stock) Transaction Bank and Best (Joint Stock) Cash Management Bank in China** for 2017 in The Asian Banker Transaction Banking Awards Programme 2017. The awards ceremony was held in conjunction with the prestigious Asian Banker Summit 2017, the foremost annual meeting for decision makers in the financial services industry in the Asia Pacific region, held at the MAX Atria@Singapore EXPO, Singapore.

China Merchants Bank achieved steady improvement in transaction business in 2016

By the end of December 2016, China Merchants Bank’s total trading volume maintained a solid growth and reached around \$4.3 trillion (RMB30 trillion) for the whole year. Consistent with the transaction growth, the bank also maintained a total intermediate income for more than \$1.2 trillion (RMB8.6 trillion), which showed a trend of continuous acceleration among the years. With the cash management customers increasing for more than 33% compared to the previous year, the bank’s cash management transactions also got a solid progress.

The bank successfully implemented a smart supply chain finance system in 2016

Aiming to extend the source of high-quality assets, China Merchants Bank promoted construction of the Smart Supply Chain Finance 3.0 System with the commitment to become "the core bank of core customers". With the customised solution, the platform offers leading competitive products and has attracted over a thousand core customers and over 30 thousand high-value core supply-chain customers by the end of 2016.

The bank built a global cash management service system to serve “going-out” enterprises

With the speeding of RMB’s internationalisation process, CMB gradually expands the all-round services for “going-out” enterprises. CMB organically combines the advanced concept

of cash management and rich products of cross-border finance to innovate global cash management (GCM) service system. As the first bank providing cross-border account integration service in joint-stock commercial banks, the implementation of the system highlights its leading advantage in technology and develops its competitive strength in cross-border payment channels.
